Importance:	High

Tim et.al –

Attached please find the **Draft version of the Smart City Challenge proposal**. This document is ready for the team's review and updates. As discussed, any new changes to this document should be made with MS Word "Track Changes" turned on, so that the changes from different people can be incorporated effectively into the master.

I have tried to incorporate most of the information I received as applicable. If I had missed anything, please go ahead and directly add to the document as a part of review/update process. We are over the page limit, but we can address once we get the initial inputs from all reviewers.

Thanks,
Balaji

Hi Team,
We've decided to go ahead and cancel the Monday meeting (yay you get your Monday afternoon back!). Scott thank you for your generosity to host, but we will instead use that day to complete the first draft and send out to those that are interested in reviewing.

We will need a 24hr turnaround from reviewers. So please let me know if you are willing and able to review in the timeframe (no offense if you don't want to!).

We appreciate everyone's input so far especially Kate's team at IDEO and Balaji's team at BAH!

The core writing team (BAH/SFMTA) is working this weekend on completing the first draft incorporating all inputs and we're 80% there!

Much appreciated,
Stay tuned.

Jay and Tim, should we just use the same list as last time? Anyone we should add?
